EXPERIENCE

Frontend Developer

Phira Ventures

Apr 2026 – Present
Lisbon, Portugal (Hybrid)

mySheepi – German D2C sleep brand, Shopify storefront, 200,000+ customers

- Rebuilt key storefront pages in Shopify Liquid, taking PageSpeed scores from the 20s–30s to the 80s–90s
- Built an internal promotion scheduler so the team can plan and launch campaigns and discounts in advance
- Built a KPI dashboard with live-site monitoring that alerts the team as soon as a critical page or flow goes down
- Contributed to average daily sales growing ~10×, from about EUR 1k to EUR 10k a day, since April 2026

Margem – independent bookstore opening in Ericeira, Portugal

- Sole developer, designing and building the bookstore's Shopify website from the ground up ahead of launch

Product Designer & Frontend Engineer (Full-time Internship)

nextflat

Sep 2025 – Mar 2026
Zurich, Switzerland (Remote)

- Sole frontend engineer and designer on a live Swiss real-estate platform (500+ users); redesigned and shipped the homepage, property feed, and lister and searcher dashboards across 2 release cycles
- Built an atomic design system of reusable React + CSS Modules components, cutting estimated implementation time for new features by ~30%
- Designed and built a map-first property feed with three view modes (map + feed, map + panel, full listing) to add missing location context

Apprentice Developer (Internship)

Sky Portugal

Jul 2024 – Sep 2024
Lisbon, Portugal

- Designed and built an internal set-top-box device management tool in under 2 weeks, cutting device onboarding from several days to under 4 hours; automated workflows and built data exports used by all operational teams

PROJECTS

StitchCraft Studio | Next.js 16, React 19, TypeScript, Tailwind CSS, Vitest

[Live demo](#) | [Code](#)

- Solo-built app (36k+ lines of TypeScript, 31 test files) to generate knitting patterns, design charts and track projects
- LLM-powered pattern drafting from text or a photo, with JSON validation and a deterministic fallback that works without an API key; hands-free row tracking via the Web Speech and Screen Wake Lock APIs

SageBook | User research, Figma, SwiftUI

- Cooking app tackling mid-recipe abandonment (60%+ of surveyed new cooks); redesigned step-by-step flow cut dead ends from 3 of 5 test participants in v1 to zero backtracking in v2

ReMi | 7-week user-centred design project

- Combined relocation and budgeting for first-job young adults into one guided onboarding; research, journey mapping, prototyping and two evaluation rounds gave a 40% clarity improvement

Creative projects: [skein](#) (crochet colour studio), [bookPod](#) (an iPod for books), [incipit](#) (first lines of unwritten novels)

EDUCATION

M.Sc. in Computer Science – Interaction & Visualization, Instituto Superior Técnico · **GPA 18/20** 2024 – 2026

- Thesis: extended a Django usability-testing tool into a multi-method research platform (heuristic evaluation, task analysis, SAM surveys) with role-based access, statistical views and Excel exports

B.Sc. in Computer Science, Instituto Superior Técnico, Lisbon

2020 – 2024

Leadership: SINFO Coordinator (2024–25), led 30 people running Portugal's largest free tech conference (5,000+ attendees)

Certifications: IBM Enterprise Design Thinking Practitioner; UI/UX & Figma Specialisation (Le Wagon, Accenture)
